

Key to the erasures

-  Tone shift — a word swapped for another in the same breath (≤ 3 words, replaced)
-  Structural cut — more than 3 words, or a cut running across lines
-  Rhythm adjustment — a false start, doubled word, fragment or bare removal

Bottom bar: dark = surviving words, colour = erased words. Margin ticks: dark = kept characters per line, colour = erased characters per line.

this

is
to

In this account of my early
men youth I wish particularly to
those circumstances tion which
led to and nourished my taste
for that science which was
the principal amusement of my
boyish days and in the end deci
. I mentioned before ded my destiny
my taste for old books of chemist
ry and natural magic and I remem
ber very well that I learned latin
principally that I might read
Pliny's Natural History my father
refusing to allow me to read a
translation. I used when very young
to attend lectures of chemistry
given in Geneva and although
I did not understand them the
experiments never failed to
attract my attention. I reme ber m

E
induced and caused me to aply wi ith
ligence to the study of fresh-di
natural philosophy which promised an ex- chemistry
i planation of th se sort of clamatio e

— phænonema. On Elizabeth and
— Clerval it produced a very different di
— effect. They admired the beauty
— of the storm without wishing to
— analyze its causes. Henry said that
— the Fairies and giants were at
— war and Elizabeth attempted
— a picture of it.
— As I grew older my attempts
— in science were of a higher nature:
— I produced little earthquakes endeavou
— and tried every kind of combination
— and elements to ascertain of gasses to
— the results:
— As I before mentioned my brothers
— were much younger than myself.

and summing up the names & actions that actions n orna
embellish the pages of history through so long men through
a series of years—they may existing While of Cyrus that
who overturned their empire and founded his own on its ruins
conducted on principles of utility and benevolence endured
through the lapse of many ages:
CThe Cyrus is contemplated with pe memory of m Cy
culiar complacency by most historians. His humanity & ge
him from love of justice distinguishes other conquerors to those w
Cyrus was edu whom ambition was the ruling motive: Cy
cated in the strictest simplicity early inured to fatigue en
after the manners of the age, to consider glory and taught as the
as the great and desirable bourne to which every virtu
. But the natural exertions ous man ought to direct his steps
mildness of his disposition led him the rather to seek for
honour in the pardon than in the punishment of his
and enemies: and if he conquered it was to bestow a more
appeared to his conquests in light often the fallen nation f s as
The romance with which of a blessing rather than a curse:
Xenophon has embellished the history of this prince and
anecdotes which he has the numerous ane either recor
invented in his honour renders as apparent by better
acquainted with the character of this monarch than of
Inmemorable anecdotes are any other of ancient times:
Xenophon recorded of his virtue and mildness by his his
but unfortunately this history must be rather regarded looked upon
as a romance than the real biography of the man; for al
through tradition might probably preserve several of the
prince private actions of so distinguished a man e is it
yet the minuteness & egularity not probable that in ea
Cyropedia must be narrations of the of detail which embellishes the entirely
: ed upon entirely as the invention of the writer historian How
