Colophon

THE BOOK

Residue follows one laptop for a week, 12 to 18 October 2026: what was copied, what was deleted, which notifications arrived, how warm the machine ran and how full its memory was.

HOW IT WAS MADE

The pages were made by prompting an AI to write JavaScript that draws every chart from the logged data, and then basil.js, which builds the book in Adobe InDesign.

TYPE

Set in **Geist** by Vercel and Basement Studio, in Regular, Medium, SemiBold, Bold and ExtraBold. Geist is released under the SIL Open Font License.

PRINTED

Printed in the Design Lab at The New School on tabloid sheets, folded into signatures and stitched by hand.

residue
